

## Survey Quiz

The following survey questions are taken from the Client Questionnaire developed by Ron Ousky and Stu Webb for their book, *The Collaborative Way to Divorce*. The complete questionnaire with score analysis can be found in Chapter 2 about divorce alternatives.

The higher your score, the more likely that mediation or the collaborative process will be a good fit for you, assuming your spouse is also a good candidate (he or she should also take the Survey). Areas in which either of you score a 1 or 2 are potential challenges for you to explore. It will be helpful to review your results with a collaborative professional to help you make a process decision.

### How to Score

- 1) Strongly Disagree
- 2) Disagree
